

SOLAR POWER FOR SMALL HOMES

6 Solar Panels

Battery

Annual Energy Requirement: 927 kWh
max Hourly Value: 327 W

Solar electric power is now available for small homes and buildings that previously could not have access to electricity. Our prefabricated Solar Kits include a complete pre-wired solar installation producing 1.5 KW of power.

Each Kit includes:

- 6 solar panels each supplying 250 watts
- 1 storage battery to supply power for evening hours
- Ultra efficient LED interior lighting
- Outlets to power small electrical devices
- Optional refrigerator 4.7 cuft/134L (refrigerator. 115L, freezer 19L)
- Easy to follow installation instructions written in local language
